

Programme

Wednesday 1st May, 2019

Room - Presidents Suite, St Mary's Stadium

Time	Theme	Talk	Speaker
08:30	Coffee and opportunity for exhibition viewing in the Mike Channon and Itchen Suites		
09:15	WReN 4 th Scientific Meeting - registration and networking		
09:45	Welcome & Introduction Overview of the NIHR wounds research portfolio		Professor Jane Nixon , Professor of Tissue Viability and Clinical Trials Research and Deputy Director at the CTRU, University of Leeds
10:00	Improving Wound Infection Diagnosis	Can a smartphone-delivered tool facilitate the assessment of surgical site infection and result in earlier treatment? Tracking Wound Infection with Smartphone Technology (TWIST): a randomised-controlled trial in emergency surgery patients	Kenneth McLean BMedSci (Hons) MBChB , Academic Foundation Doctor, University of Edinburgh
10:30		Exploring the feasibility of collecting patient/carer-taken images of surgical wounds for outcome assessment after leaving hospital: The Selfi wound study	Ms Rhiannon Macefield , Senior Research Associate and trials methodologist at the Bristol Medical School, University of Bristol
11:00	Break and opportunity for exhibition viewing in the Mike Channon and Itchen Suites		
11:30	New Trials Forum	PPAC2 Trial: Half way point. Trials and tribulations	Katy Newton FRCS MD , General Surgery Trainee, University Hospitals NHS Foundation Trust, Manchester
11:48		The SUNRRISE Trial: Single Use Negative p ressure dressing for Reduction In Surgical site infection following Emergency laparotomy	Mr Richard Wilkin , Academic Clinical Lecturer/ General Surgical Registrar, Institute of Cancer and Genomic Medicine, University of Birmingham
12:06		A pragmatic multicentre randomised controlled trial to assess the clinical and cost effectiveness of negative pressure wound therapy versus usual care for surgical wounds healing by secondary intention (SWHSI 2)	Professor Ian Chetter , Professor of Surgery and Director of Research, Hull York Medical School
12:24		CODIFI2: Comparing sampling and processing methods in diabetic foot ulcers	Dr Angela Oates , Lecturer in Wound Healing, Centre for Atherothrombosis and Metabolic Disease, Hull York Medical School
12:42		ROSSINI-2: Reduction Of Surgical Site Infection using several Novel Interventions	Professor Thomas Pinkney , Professor of Surgical Clinical Trials, University of Birmingham and Honorary Consultant Colorectal Surgeon, University Hospitals Birmingham NHS Foundation Trust
13:00	Lunch and opportunity for exhibition viewing in the Mike Channon and Itchen Suites		

Time	Theme	Talk	Speaker
WReN Free Papers and MOT Sessions			
14:00 Paper 1		What is meant by 'good wound closure'? Development and pre-testing of a tool for assessing the quality of wound closure after surgery	Beth Birkbeck , Medical Student, Centre for Surgical Research, Bristol Medical School
14:13 Paper 2		Online data collection tools and mixed method follow-up improves accuracy of SSI documentation following colorectal surgery - Pilot Project to All Wales SSI Colorectal Audit	Nicola Reeves , Colorectal Clinical Research Fellow, University Hospital of Wales, Cardiff
14:26 Paper 3		Implications on sample size and power when using multi-state models to analyse pressure ulcer prevention trials	Isabelle Smith , NIHR Doctoral Research fellow and Senior Medical Statistician, CTRU, University of Leeds
14:40 MOT 1		Extracorporeal shockwave therapy for diabetic foot wounds: an RCT	Louise Hitchman , ACF ST1, Academic Vascular Surgery Unit, Hull and East Yorkshire NHS Trust
15:00	Break and opportunity for exhibition viewing in the Mike Channon and Itchen Suites		
15:30 MOT 2		ClustEr randomisEd Trial of sterile glove And instrument closure to reduce surgical site infection	James Glasbey , NIHR Academic Clinical Fellow in General Surgery, University of Birmingham
15:50		How to be successful in the three I's: Industry and Investigator Interactions	Emma Wright PhD , Chief Medical Officer, Mölnlycke Health Care
16:10		Working with industry on an investigator led industry supported trial	Professor Thomas Pinkney , Professor of Surgical Clinical Trials, University of Birmingham and Honorary Consultant Colorectal Surgeon, University Hospitals Birmingham NHS Foundation Trust
16:30	Health Economics	Is an RCT comparing wound dressings in general surgery a cost-effective investment? A value of information analysis for the Bluebelle study	Professor Nicky J Welton , Professor of Statistical and Health Economic Modelling, Department of Population Health Sciences, University of Bristol
16:55		Concluding remarks	Professor Jane Nixon , Professor of Tissue Viability and Clinical Trials Research and Deputy Director at the CTRU, University of Leeds
17:00	Close
